

# Twintress Listenings/Readings @ The Crystal Source, Thanksgiving Weekend 2018

*This is the most amazing time for humans on the Earth Mother, ever. We are living and breathing in the biggest transformation— overnight evolution— that our species has ever been invited to join: **No wonder everybody wants a reading right now!***

*We are here, now (literally), offering the most potent, the most practical, the timeliest, and the most unconditionally supportive readings/listenings/consultations we can give, as our Spirits directly asked us to offer:*

1. **Elemental Birth Imprints-** An EBI happens when the Devic Spirits of the elements making up ALL life/form/events on the Earth— *Earth; Fire; Water; Air; and Ethers*— imprints our bodies for this entire lifetime at the last moment we are in our mother’s womb before birth. Since the Elementals are ever dancing in some constantly changing, perfect combination to make all form, they leave us with our own, unique imprint, like: Water/Fire; Earth/Air; etc. **This imprint is our Pre-Personality Self.**

In utero, we are still beings of union. The moment we leave the womb, we seemingly separate from our mother, Spirit, and true awareness. In discovering our EBI, we immediately and *kinesthetically* return to our true core of union: Now we can respond from it in all things, in all moments (instead of reacting from misery-causing, unnecessary separation.). We re-birth... & we re-write our lives, from union, **as we wish.**

Want even more support with that? We have a book that easily, immediately references the foundation of the EBI’s, called, “*Elemental Birth Imprints,*” available for sale, in a heartbeat.

2. **Body Scans (AKA Super Hero! Body Scans)-**We will listen with your body, as it tells us whatever things it wants to get more attention for all of your physical/emotional/mental/psychic-etheric needs. It pinpoints the true priorities, according to what you are willing to integrate.

Grab this succinct information: Here are immediate steps to take care of yourself. For instance, one person got homework to alter her meditation so that she looked up at a slight angle at that time, so her brain would more readily access alpha brain wave states — helping her to spontaneously reach more creativity & clarity. It is not intrusive— only supportive, empowering and wholistic.

3. **Aura Drawings-** Okay, we’re NOT artists in that pretty, “artistic” way; that’s not the point. We draw your living, breathing aura as it actually *presents as it is moving* and talking to us in full 3D AND multidimensionality. Your aura can, and does, change constantly. You can truly see deep and often, subconscious, parts of you. This profoundly encourages you to connect & work with them, as only you can. We will translate what the different auric symbols mean, so you can get an outside, non-

judgmental perspective to understand yourself, profoundly. Then you take the picture home with you and we highly recommend that you talk with it and keep connecting with it for more and continual wisdom. Draw your own updates to it!

4. **GDV Scans** (Gas Discharge Visualization)- Want a sophisticated computer camera to tell you: your overall energy levels & reserves; your chakra vitality & placement; your basic stress level; the activity in your organ meridians; your Yin/Yang and hemispheric balance? This is you. After we get the basic read-outs, you will identify an issue to work on Then we will offer a Stone to work with that and take a new Scan to show you how Crystals/Tools work with you physically and energetically.

You need to schedule your readings in advance for Friday Nov 23 and Mon Nov 26, \$99/hr. For the Sat Nov 24 and Sun Nov 25 GDV readings, you can schedule in advance \$50/half hour or in person at
